The Virtual GameCourt Contractor...

is the feature that makes our company a cut above in court design and pricing. The professional guidance and communication customers receive when they buy a gamecourt kit from Gamecourts.com is the key difference in our success.

The Virtual GameCourt Contractor Program will:

- Discuss Layout Ideas and Design Your Game Court**
- Provide Different Court Design Layout Ideas**
- Provide Slab Specification and Guidelines**
- Calculate Customized Slab Dimensions**
- Speak with Your Sub-Contractor**
- Review Installation Procedures**
- Provide Thorough Guidance**

When you make a \$100 deposit towards your purchase of a gamecourt kit, these services are included in the price and cost nothing extra. If you change your mind about the project, or decide to purchase products from another company: no sour grapes (we're too busy for that!)

There is no timeline and you're under no obligation to buy from us. But with Virtual Contractor, you can feel good about calling and asking us questions about your gamecourt project, and we can feel good about sharing our experience and expertise with you.
